

## COASTAL ISLAND FISHING ADVENTURES

*... Your Adventure Starts Here!*

Our commitment since day one is to provide you with an exciting and enjoyable, yet a memorable and relaxing experience.

*Campbell River's most recommended  
choice in Guided Sport Fishing!*

### **Fishing Report – February 1, 2010**

With the weather holding we were able to find some really nice winter fish over the last couple weeks in the 12 – 15lb range with one tipping the scale at 21lbs and traps filled with plenty of Prawns. February is one of the best months for winter Chinook with the weather being more predictable I expect to see good fishing for the next month. We have been concentrating our efforts along willow & shelter point trolling back and forth through the trenches between 150 – 200 feet of water.

For those interested in getting an early start on the 2010 fishing season, just give us a call. The weather is cooler but the fish still bite and the boat heaters are on!

Again, I would like to thank everyone who joined us this past year and look forward to hearing from you all again and having you aboard!

**It's time to go fishing!  
Space is filling, be sure to book early to avoid disappointment.  
We look forward to seeing you in 2010!**

Tight Lines & Good Fishing!  
Gary Stotts
