

COASTAL ISLAND FISHING ADVENTURES
... Your Adventure Starts Here!

Our commitment since day one is to provide you with an exciting and enjoyable, yet a memorable and relaxing experience.

*Campbell River's most recommended
choice in Guided Sport Fishing!*

Fishing Report - June 24, 2009

Coastal Island Fishing Adventures welcomes you to Campbell River. As we near the end of June the fishing has continued with a good population of Chinooks averaging 12 - 20lbs. Over the last couple of weeks our guests have enjoyed several fish up to 27lbs. We have been finding fish at the Lighthouse, the Hump, down along Shelter to Salmon point and Bates Beach. As part of an adventure filled day with Coastal Island Fishing Adventures we are dropping the prawn traps with good success along the back side of Quadra. What a great way to wrap up a days fishing than with fresh prawns dipped in garlic butter!

North of the Narrows, we have seen larger numbers of Chinook showing up in recent days in Deepwater, Brown's & Greensea Bay. As we get into July things really start to flow as we start to see the push of Fraser River Chinooks, come through and start of the Pink & Sockeye run which will provide some fantastic summer fishing. With our trips north we will drop crab traps in search of the very delicious of Dungeness crab. Since the opening of Lingcod & Rock Fish on the 1st of May we have had great success with lingcod up to 30lbs (WOW) this adds some "reel" excitement to a great day on the water.

Salmon fishing, prawning, crabbing and/or bottom fishing – the choice is yours with Coastal Island Fishing Adventures. We look forward to sharing with you the thrill of the catch!

Tight Lines & Good Fishing!
