### Fishing Report – September 3, 2010

Coastal Island Fishing Adventures welcomes you to Campbell River. As we roll into September fishing continues to be strong, with a good population of Sockeye still in the area, which we have to say WOW and for those who had a chance to fish the Campbell River area an experience that fishery, WOW again. Can't wait for 2014 to see what happens from this amazing run of 30 million fish. Chinook fishing continues with fish in the 15 – 50lb range, Coho 8 - 20lbs. Areas like Brown's, Deepwater Bay, Chatem Point, Greensea Bay are a few of the hotspots.

Since the opening of Lingcod & Rock Fish, we have had great success with lingcod up to 37lbs (WOW) this adds some "reel" excitement to a great day on the water.

Salmon fishing, prawning, crabbing and/or bottom fishing – the choice is yours with Coastal Island Fishing Adventures. We look forward to sharing with you with the thrill of the catch!
